

Workshop
Integrative Approaches in Neurodegeneration
Lisbon, June 21st to 23rd 2018

Preliminary Program

Thursday, June 21st

9:30 Reception and registration

Session I - Models of neurodegeneration - from cells to model organisms

10:30 to 13:00 (with coffee-break)

Richard I. Morimoto, Northwestern University
Claire Russell, Royal Veterinary College
Aaron Voigt, RWTH Aachen University
Dora Brites, iMed, University of Lisboa

Session II - Basic mechanisms of neuronal function and dysfunction

14:30 to 16:30

David Van Vactor, Harvard Medical School
Martina Hallegger Ule Lab, University College of London
Florence Besse, Université Nice Sophia Antipolis
Cláudio Gomes, BiolSI, University of Lisboa

Coffee-break/Poster session

Friday, June 22nd

Session III - Computational and modelling approaches for data integration

9:30 to 12:30 (with coffee-break)

Lawrence Rajendran, University of Zurich
Javier De Las Rivas, University of Salamanca
Sara Madeira, DI, University of Lisboa
Martin Hofmann-Apitius, Fraunhofer SCAI

Session IV - Insights from cross-disease studies

14:00 to 16:30

Tom Gillingwater, University of Edinburgh

Luis Pereira de Almeida, CNC, University of Coimbra

Margarida Gama Carvalho, BioISI, University of Lisboa

Peter Heutink, DZNE-Tübingen

17:00 – 19:00

Selected talks from participants

Saturday, June 23rd

Session V - Integrating Basic and Clinical Research

9:00 – 11:00

Tiago Outeiro, University Medical Center Goettingen

Joachim Weis, RWTH Aachen University

Joaquim Ferreira, IMM, University of Lisboa

Jörg Schulz, RWTH Aachen University

11:30 Closing
